◇ Why should you attend?

Risks come from multiple sources and can appear in many shapes and sizes. Almost every strategic decision within an organization is accompanied by certain risks that the organization must acknowledge and deal with. There is no growth without risk taking, hence, risk management should be an integral part of the processes in every organization.

The ISO 31000 Risk Manager training course helps participants acquire the necessary knowledge and ability to integrate the risk management guidelines of ISO 31000 in an organization. It provides information about the risk management principles and their application, as well as the core elements of the risk management framework and steps for a risk management process. In addition, it provides the basic approaches, methods, and practices for assessing risk in a wide range of situations.

◇ Who should attend?

• Managers or consultants responsible for the effective management of risk in an organization.
• Individuals seeking to gain knowledge about the risk management principles, framework, and process.
• Individuals are responsible for the creation and protection of value in their organizations.
• Individuals interested in pursuing a career in risk management.

◇ Learning objectives

• Demonstrate understanding of risk management principles, as formulated in ISO 31000.
• Establish, maintain, and continually improve a risk management framework, in accordance with ISO 31000 guidelines.
• Apply the risk management process, in accordance with ISO 31000 guidelines.

Certification: Upon the successful completion of the exam, participant will get the "**PECB Certified ISO 31000 Risk Manager**" credential.
