◇ Why should you attend?

The ISO 31000 Foundation training course presents the basic principles and approaches of managing risks and opportunities based on the guidelines of ISO 31000. This training course focuses on the main components of ISO 31000: basic terms and definitions, principles of risk management, risk management framework, and risk management process. In addition, each step of the risk management process is analyzed and elaborated individually.

◇ Who should attend?

- Individuals involved in risk management.
- Individuals seeking to gain knowledge of risk management principles, framework, and process.
- Individuals seeking to manage the risks and opportunities in their areas of responsibility.
- Individuals interested in pursuing a career in risk management.

◇ Learning objectives

- Summarize the main concepts and principles of risk management as articulated in ISO 31000.
- Explain the ISO 31000 guidelines for establishing the risk management framework.
- Describe the application of the risk management process in accordance with ISO 31000 guidelines.

Certification: Upon the successful completion of the exam, participant will get the “PECB Certified ISO 31000 Foundation” credential.
